

## **PUBLIC NOTICE**

### **U.S. EPA SIGNS RECORD OF DECISION FOR RUSTON FOUNDRY SUPERFUND SITE**

**June 24, 2002**

The U.S. Environmental Protection Agency Region 6 (EPA) has issued a Record of Decision (ROD) for the Ruston Foundry Site in Alexandria, Louisiana.

The Remedial Alternative selected for cleaning up the Ruston Foundry Site is Stabilization and Offsite Disposal (Alternative 4 in the Proposed Plan issued in March 2002). This alternative meets the cleanup levels, is easily constructed, and is expected to achieve long-term permanence and risk reduction through treatment and offsite disposal within a reasonable time frame. It is expected to allow the property to be used for the reasonably anticipated future land use, which is recreational/commercial. Because the waste material will be disposed offsite, operations and maintenance activity and five-year reviews of the remedy will not be required.
